Only for you we have revised the options for RNA oligonucleotides and are glad to present now our new scales.

The scales RS27 and RS40 are most suitable for large orders of RNA oligonucleotides. In combination with our new discounts the price for these RNA oligos starts at only **45,89 EUR**.

The HPLC purification is already included.

1 The discount price (24 oligos) per RNA oligo in scale RS27 is in EUR (€). VAT may apply. The Early Bird Discount is already included.

2 The yield represents the guaranteed minimum yield in OD. The final yield in µg and nmol depends on the length of the oligonucleotide and may vary for homopolymers or oligos with strong secondary structures. Purification by PAGE is available on request.

3 The number of oligos per order refers to the scales RS27 and RS40.

4 The prices are in EUR (€). VAT and shipping may apply. The scales are valid for unmodified RNA oligos with mixed sequences and a length of 12-40 bases.
