

Pricelist RNA Oligonucleotides

Prices in CHF, VAT may apply; valid from 3rd July 2008. Errors excepted, prices may change without prior notice. With the release of this pricelist all prior pricelists are no longer valid.

RNA-oligonucleotides are purified by HPLC, if not stated otherwise.

Prices include the complete oligonucleotide inclusive the bases (minimal and max. number as specified), purification, quantification and quality control.

* the given amounts are guaranteed for a 20mer RNA-oligonucleotide, homopolymers may yield less.

** for more than 40 bases: no PTOs, no modifications. *** PAGE purification strongly recommended.

Price per modification, HPLC-purification is included.

* the given amounts are guaranteed for a 20mer RNA-oligonucleotide.

** 5'-Phosphate only possible with PAGE-purification.

The modifications are available for PTO-free RNAs up to 40 bases. If you require longer oligos, please contact our customer support.
